

New Rose General McArthur. (See page 4.)

Our Unnamed Collections of Plants FOR \$1.00

These collections are subject to the following conditions: That persons ordering are only to name the number, designating the collection or collections wanted, as it takes too much valuable time to read long letters giving detailed lists of plants in each collection desired. Simply the number of collection is all-sufficient.

ORDER BY NUMBER ONLY

The following by Mail or Express

- No. 1. 25 Ever-blooming Roses, all different, and all fine sorts.
- No. 2. 20 single and double Geraniums, all different.
- No. 3. 30 Coleus, all colors and kinds.
- No. 4. 30 Verbenas, all colors.
- No. 5. 30 Alternantheras, green and red. No. 10. 10 Roses, 10 Geraniums.

- No. 6. 15 Moonvines, white and blue,
- No. 7. 25 Salvias.
- No. 8. 30 Pausies, all colors.

NOTHER busy season has passed, and we again present you with our Annual Rose and Plant Catalogue. While it cannot compare with many other catalogues in gorgeons pictures and still more extravagant descriptions, we aim to keep as close to the facts and truth as possible, and in describing we prefer to say too little rather than too much in praise of a plant, and we hope this Catalogue may meet with

the same cordial reception as those of previous years. We have tried to make the arrangement of plauts in such a manner as to be easily understood, and not confusing to the ones who order from it.

Our plants this season are in the bost possible condition, strong and healthy. We have discarded everything that we have found wanting, and our southern friends will not find anything offered that will not do well in this climate. We make a specialty of growing **Plants for the Southern Planter**; anything that is not desirable in this clime we do not offer. Our roses this season are up to the standard, and nowhere can better plants be had; we have discarded all sorts that are so similar that the difference is hardly noticeable. We do not list several hundred sorts, but have the best.

In conclusion, we wish to thank our patrons of last season for their liberal orders, and especially for the many kind words in praise of the quality of stock and fair treatment. We shall continue on the line as laid out, and shall do our best to so treat all who patronize us that they will have no cause for complaint.

Awaiting your further command, we remain,

Yours for flowers,

Read Before Ordering

Please send the remittance with the order. We do a strictly cash business, and have no open accounts in the mail order department.

Our responsibility. We guarantee all goods to reach their destination in a live condition, but when we have done this our responsibilty ceases, because we know that if they receive proper treatment they will grow nicely. Many plants die from careless treatment and neglect; in such cases we cannot and should not be expected to replace them, as we cannot guarantee plants to grow when neglected.

Should you receive two or more Catalogues alike, which sometimes occurs, have the kindness to present such as you do not need to others who will likely want plants. By doing so, confer a double favor. We will also feel thankful for your recommendation of our establishment to your friends wanting plants. A copy of our Catalogue will be furnished to friends requiring plants, on receipt of address.

When sending club orders, please give full name and address of each member of the club, so that we may euter their names and forward them our Catalogues as issued

When corresponding, be careful always to sign your name the same way. Ladies sometimes send an order in their own name, and perhaps write again inquiring about the order in their husband's name. This often causes us much annoyance and waste of time. Do not mix your order and correspondence together. If you wish to write concerning the order, write it on the back of the order or on separate sheet.

By our careful manner of packing we are able to send plants, etc., to all parts of the United States with perfect safety. Please favor us with an early order while stock is complete.

Send post office money order or draft on eastern cities. If more convenient, money can be sent by express money order with perfect safety, as in case the letter is lost a duplicate can be obtained if you are careful to keep your receipt. Do not send individual checks, as it costs from 15 to 25 cents to get them cashed. It is not safe to send currency in letters unless registered. Money sent by express must be prepaid by the sender. Money may be sent at our risk only when the above conditions are complied with.

It will facilitate the dispatch of business if with each order the Order Sheet is used, and the name and address are written plainly and in full; also direct by what conveyance the articles may be sent. Please always particularly state whether plants are to be sent by mail or express. Express is always best where it can be done, and plants will be larger. When left to us, we will use our best judgment.

New low express rates. We call attention to the new low express rates, which is a reduction of 20 per cent from the regular merchandise rate, at which plants have been expressed heretofore, and also that packages of less than 100 pounds are billed at 100-pound rates. Remember, plants can be shipped at a lower rate than any other class of merchandise. No orders sent C. O. D. unless at least one-third of amount is sent with order.

SIZE OF ORDERS. We fill orders of any size, but no orders for less amounts than 50 cents will be filled unless 15 cents is sent to cover cost of packing and postage. It takes as much time and packing for an order for one or two plants as it does for an order for two or three dollars, and we can not afford to fill orders for so small an amount and pay postage.

Prompt filling of orders. We aim as far as possible to fill all orders the day after they reach us; but in the busy rush of the spring trade it is sometimes impossible to do this, and then they are filled in strict rotation and as speedily as possible. We rarely hold an order for more than two or three days at the longest; so please do not be impatient, but give us a little time and your order will have the most prompt atteution possible. If you do not hear from us in five or six days, then drop us a line, for your order may have failed to reach us; this will give us a chance to trace it in case it has been miscarried, but you can depend on the most prompt execution possible, in filling your orders.

Address all orders and make all remittances to

THE HASKELL AVE. FLORAL CO., Dallas, Texas

OUR PREMIUM OFFER

We will allow our customers who remit with their orders from this Catalogue (either eash, check, post-office order, express money order or stamps), to make their own selection of premiums (no premiums allowed uniess eash accompanies the order) : : : : :

TO THE VALUE OF TEN PER CENT

For instance:

| A | \$1.00 | remittance | entitles | you to | a 10% | premium, | or selection | to the | value | of \$1.10 |
|---|--------|------------|----------|--------|-------|----------|--------------|--------|-------|-----------|
| A | 2.50 | 44 | 44 | 44 | 10% | 11 | ** | ** | ** | 2.75 |
| A | 5.00 | ** | a | ** | 10% | 44 | 44 | ** | ** | 5.50 |
| A | 10.00 | 44 | 44 | ** | 10% | 11 | 44 | ** | 44 | 11.00 |

It must be expressly understood, however, that premiums must be selected at the time of ordering, and also that premiums can be allowed only on plants at single plant price. No premiums allowed on special collections, or at dozen or hundred prices.

Reasons Why You Should Buy Your Roses From The Haskell Ave. Floral Co.

No better Roses are grown by any establishment.

We are near to our southern planters, and they can get their plants delivered fresh and already acclimated. They do not have to travel several days in closed boxes, subject to all kinds of unfavorable conditions.

We do not grow a single sort that has not true merit. We aim to have every sort distinct, and avoid sorts that are so near alike that the difference is hardly detectable.

We grow all Roses on their own roots. You need not fear that they will run wild, as is the case with all Roses that are budded on wild stock.

We guarantee all plants to reach you in good condition, whether forwarded by mail or express to any part of the country.

Our prices are as low as first-class plants can be possibly furnished at, allowing a reasonable margin of profit, prices that we could not possibly hold up if it were not for the large volume of business we do each season.

We are Texas florists, and we want your business, and promise you first-class service and the best plants to be obtained anywhere.

USE OUR PLANT- AND ROSE-FOODS AND YOU WILL HAVE PLENTY OF FLOWERS, HEALTHY PLANTS AND LARGE TIPS

Two Grand New Roses

The following two Roses are an entire novelty, as they are introduced for the first time to the Rose-lovers, and we are confident they will meet with a friendly welcome.

Price, 21/2-inch pots, 25 cts. each, 45 cts. for the two

General McArthur. Color brilliant searlet. One of the most fragrant of the June-scented Roses, and a true everbloomer. It is probably every one bearing a fine bloom. Lasts finely when eut, and is hardy out of doors with slight protection. The best everblooming red Rose yot introduced.

La Detroit. The new Breitmeyer Rose, which has been so largely exhibited and advertised. Shell-pink, shading to soft rose; reverse of outer petals petals shell-like. Rich glossy foliage. A rampant, vigorous grower, producing long shoots.

Roses of Late Introduction

Price for fine plants from 21/2-inch pots, by mail or express, 15 cts. each, 25 cts. for 2, or the full set for \$1.25

Mad. Abel Chatenay. Very strong, healthy growing variety with rieh, bright foliage. A grand bedding Rose, as it is a profuse and continuous bloomer; flowers of good size, very double, with slightly recurved petals; elegant buds, just the right size and shape for buttenhole use; color rosy earmine, shaded sahnon.

Killarney.

A very beautiful Hybrid Tea
Rose. The color is au exquiin growth; strong heavy shoots, which are
crowned with buds.

Mrs. B. R. Cant. A fine garden variety of even shade of salmon-rose, round and full, the form of a good Hybrid Perpetual. A very free grower and free bloomer. It flowers as continuously and freely as a China Rose, and is especially fine in autumn. A splendid addition to our standard bedders.

Marquise de Querhoent.

A longpointed

bud on a stiff, upright stem, flowers borne
singly; the color is beautiful china rose,
eopper-salmou and golden yellow; extremely free. A seedling of G. Nabbonnand and Laurette Messimy.

Mrs. Oliber Ames.

This delightful Rose is round and ruffled at the edges. The color is creamy white, laced and shaded in piuk. Foliage small, closely set, leathery and dark. It is a sport from Mrs. Pierpont Morgan.

Franz Deegen. A seedling from Kaiscrin Augusta Vietoria.

This beautiful yellow Hybrid Tea is a fine grower, having dark leathery foliage and the good habit of throwing np numerous heavy canes, each one crowned by a glorious flower of large size, composed of large petals; the outer petals are about the color of Perle des Jardins; the inner petals a good orange shade, very deep and rich. It is a constant bloomer, opening its buds freely; a strong, healthy grower, not subject to mildew. A very promising variety.

Prince of Bulgarie.

are, bright green foliage; beautiful in bud; flowers are very large and full; the outer petals are extremely large, of superbrosy flesh-color; very flue and very free. First prize at the Paris Exposition. Very much like a superb Carnot in form.

Philadelphia Rambler.

Rambler in three important points: The color is deeper and more intense; the flowers are perfectly double to the center, very durable and of fine substance. The blooms are almost entirely free from the faded look often found in Crimson Rambler. It is very free in both growth and bloom, and will be found a splendid addition to the Crimson Rambler section.

Lady Battersea. This variety has long, pointed buds of the largest size, and is very striking in form; the eolor is bright eherry-crimsou, often approaching the shade of Liberty. The stems are stiff and extremely long; a vigorous grower and free bloomer; early in the seasou the flowers are not very double, but on strong plants the blooms are well filled. Au unusually promising bedder.

Countess Dusy. We have found this a most useful and beautiful general-purpose Rose. It is dwarf in habit, extremely free and branehing in growth, blooms in great profusion, and is pure white in color; the buds are pointed, and the open flower of very large size. We strongly recommend this variety as an outdoor border Rose.

Soub. de Pierre Notting.

This variety is a seedling of Marechal Niel and Maman Cochet, with beautiful closely set foliage and a strong, sturdy habit of growth. The bloom is very large, perfectly full, of clegant form, having a beautiful long bud; the colors are very bright, distinct and clear, and have no unpleasant toues—orange-yellow, bordered in carmine-rose. Promises to prove very popular. Has received no less thau six gold medals and prizes.

Roses of Special Merit

All the following sorts will be found first-class. We list the best of the old varieties and many that are of recent introduction; all of them are worthy of a place in your collection.

Remember we are the Largest Growers of Roses in the South

Prices for the following sorts, except where noted: Nice, etrong plants from $2\frac{1}{2}$ -in. pots 10 cts. each, 25 cts. for 3, 50 cts. for 10, \$1 for 20, all labeled, by mail, poetpaid, or by express, purchaser paying express charges. For field-grown plants of any of the sorts marked * 25 cts. each, \$1.25 for 6, \$2.50 per doz., \$4.50 for 24, \$6 for 36, except where noted, by express only, purchaser paying express charges.

No orders filled for field Roses for less than \$1, unless ordered with other plants. Premium not allowed on above prices by the 10, 20 or dozen rates.

*Archduke Charles

One of the deservedly popular Roses in the South. This is the "Confederate Rose." Its bid for favor lies not alone in its name, but in its individual fragrance, added to an abundance of blooms whose coloring is the red and white of the "Lost Cause." Give it a place.

*American Beauty

One of the grandest of all Roses. No red Rose is more popular and no yard is complete without one or more of these beautiful Roses. If you have room for only one Rose, let it be this oue. 10 cts. cach, \$1 per doz.

*Agrippina

Rich, velvety crimson; a grand bedder.

*Admiral Schley

This is a new bedding Rose of great excellence sent by Mr. John Cook, of Baltimore, who has originated a number of our finest Roses. It is best described as a red Burbank. A very free bloomer, and, we believe, has come to stay.

*Admiral Dewey

Place one of this variety in your Rose garden if you are fond of a delicate blush Rose, perfectly formed, and with a delicious fragrance. Has all the good points, and is one of the additions of recent years.

*Beatrix de Buisseret

Bud extraordinarily beautiful; flower very large, quite full, of beautiful form and perfect texture; silvery rose and rosy carmine; very free and fragrant. A seedling from Testout, and a truly fine Rose. We believe this Rose will have a large sale as soon as it becomes better known, and we feel justified in recommending it highly. Field-grown, 30 cts.

*Bessie Brown

A Rose of transcendent beauty, totally distinct, and one of the largest and fullest that we bave ever seen. It is erect and vigorous in growth, flowering profusely in the open ground all

through the summer; so far (December) it shows fine flowers outside. Color pure white, sometimes faintly flushed pink; petals enormons and of shell shape; it is marvelous that such large flowers can be so freely produced. Field-grown, 30 cts.

*Bridesmaid

The most popular pink Tea Rose. Thousauds of this variety are grown every year for cut-flowers; also very desirable for summer bedding outdoors. A delightful shade of bright pink, free-flowering and easily grown.

*Bride

A pure white Rose of perfect form and fine size. The bnds are long and pointed; the flower opens up beautiful and full; delightfully sceuted. The most popular white Tea Rose.

American Beauty.

*Bon Silene

Still a prime favorite, on account of its delightful fragrance and strong growth; deep rose, shaded carmine. Valuable for summer or winter flowers.

*Bougere

Very similar to Catherine Mermet in color. We find it to be one of the most continuous bloomers; very hardy. A first-class all-round Rose.

*Coquette de Lyon

Vigorous, rapid grower and constant bloomer. Pure canary yellow.

Comtesse de Frigneuse

In color, charming; in freedom of bloom second to none. The buds are long and pointed, and of good size. The color is deep golden yellow, with softer shade inside of petal. Ranks next to Marechal Niel.

Christine de Noue

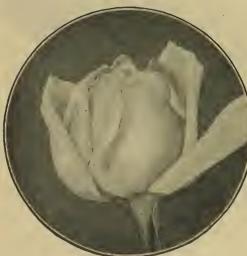

Splendid, free-flowering; rich erimsonmaroon, changing to purplish red. Makes a large, nicely shaped bush, with clean, bright foliage.

*Clara Watson

Cold type poorly conveys the singular beauty of this Rose. Beauty is nature's coin, and Clara Watson is ricb. The groundwork of the flower is a creamy white, and the petals are suffused with golden yellow and rosy pink.

*Catherine Mermet

Buds very large and globular; petals recurved, showing to advantage the lovely bright pink of the center, shading into light, creamy pink, reminding one of La France in its silvery shading. A strong grower and fine bloomer.

Etoile de Lyon.

*Clothilde Soupert

Begins to bloom when but 3 or 4 inches high, and is never without bloom if kept healthy. The full, double flowers are produced in sprays of three or more and are of the finest imaginable form. The outer petals are pearl-white, shading to a ceuter of rosy pink, but vary sometimes from pure white to silvery rose ou the same plant.

Crown Princess Victoria

A sport from Souv. de la Malmaison, which it resembles very much in habit of growth and style of flower. The bud, which is slightly tinted yellow, opens out into a fine double pure white flower. Very fragrant. A most desirable Rose.

*Corallina

Deep rosy crimson, large petals, fine in bud form. Very strong-growing and freeblooming sort of great merit. We have great faith in the future of this Rose, and we believe it will be much sought after when it becomes better known.

*Duchesse de Brabant

Soft, rosy flesh, changing to deep rose; very free in bloom and valuable.

*Etoile de Lyon

One of the best and most beautiful yellow Tea Roses for general planting; may be had in bloom the entire year by proper treatment. The flowers are of good size, deep, full, very sweet-scented, rich golden yellow.

*Golden Gate

The buds are long and pointed, opening out into well-shaped flowers of creamy white, delicately tinged with golden yellow and rose; blooms continuously.

Gladys Harkness

Growth very erect and vigorous, reminding one of American Beauty; profuse in bloom. Flowers large, formed like a fine Hybrid Perpetual; color deep salmon-pink; has a splendid constitution and is very fragrant.

*Gruss an Teplitz

Hybrid Tea. As a bedding Rose this is one of the finest and most useful varieties ever sent out. Many of our customers who bought it last spring are realizing its value and singing its praises. It will take rank with Hermosa or Soupert. The color is brightest scarlet, sbading to deep, rich, velvety crimson. It is very fragrant. The freest grower.

Don't forget our new Roses; they will please you and you will have some sorts not seen in your neighbor's yard.

General Robert E. Lee

Orange-yellow, after the style of Ma Capucine, but richer and better. It is a good grower, has elegant long buds, borne ou long stems, and will produce more of them than any other Rose we know. It forces easily, being at its best in midwinter. The color is so peculiar and rich that it attracts attention wherever seen. Try it.

* Helen Gould (Baldwin)

Not only ourselves, but the general public, believe this Rose to be one of the best ever-blooming Roses ever introduced. Its color is quite attractive, being a soft, intense carmine, with shades of cerise and solferino very much the color of American Beauty. It blooms very freely and will endure extremely cold weather with slight protection. A grand Rose to add to our list and one that every florist should introduce to his trade.

* Helene Cambier

This lovely coppery yellow Hybrid Tea Ever-blooming Rose will fill a long-felt want, from the fact that everybody has been looking and longing for a good yellow

Rose that combines vigorous hardiness with rich color and free-blooming qualities. This Helene Cambier does. It is a new Rose of French origin, destined, we believe, to find a prominent place among the highest grade of ever-blooming Roses.

* Hermosa

Always in bloom and always beautiful; the eolor is a most pleasing shade of pink; very fragrant.

* Ivory (White Golden Gate)

It is a perfect Golden Gate in all respects except color, which is of the purest ivorywhite. It has the same exquisite shape of bud as does its parent plant. We have found it a free and constant bloomer, and In all respects a first-class Rose. You will do well to include this beautiful Rose in your order.

*Kaiserin Augusta Victoria

A beautiful Rose with elegant, largepointed buds and very large, full double flowers; delicate creamy white; deliciously fragrant. The plant is a strong, healthy grower and constant bloomer. The flowers are on strong, stiff stems, with rich glossy foliage, making it one of the finest Roses for corsage wear or any use whatever.

*Lady Clanmorris

Perfectly distinct; a splendid Rose, of very robust growth and free, branching habit, flowering continuously and freely throughout the season; blooms very large and of good form; petals large, smooth and of great substance; creamy white, with delicate salmon center, edge of the petals margined pink. Field-grown, 30 cts. each.

Liberty.

* Lady Mary Corry

Growth vigorous and of erect, branching habit; blooms of good size, freely produced and perfectly formed; color deep golden yellow. Distinct and fine. Field-grown, 30g.

* Liberty

A lovelier thing than this new Rose was never fashioned. Always abreast of the times, I have a large stock of this variety, although a recent arrival in the Rose world. The color is bright, flashing erimson-searlet. Our price is one of this year's bargains.

* Louis Philippe

Rich, dark, velvety erimson; free and beautiful.

* Marie Guillot

Splendid for any use; especially desirable for summer Rose beds; pure white, sometimes tinted pale yellow.

* Meteor

Rich velvety erimson, exceedingly bright and attractive. The plant is of vigorous growth and very free-flowering.

* Mrs. De Graw

An ideal bedding Rose that will give an abundance of bloom from early summer until frost. The flowers are bright rich pink, of good size and very fragrant; blooms in clusters.

* Mad. Schwaller

A remarkable Rose, having the strength and style of the Hybrid Perpetual and the free-flowering qualities of the Tea; color deep rosy flesh, deepening on edge of petals.

* Maman Cochet

An excellent pink Rose, with rich, healthy foliage and large flowers on long, straight stems; deep rosy pink, the inner side of petals silvery rose. Equally valuable for pot eulture or outdoor planting.

Marion Dingee

One of our best dark-colored ever-blooming bedding Roses. Flowers of good size, cupshaped, borne in profusion; deep crimson, changing to earmine in the matured flower.

Marie Van Houtte

Is ereamy white, outer petals outlined with bright rose; occasionally the entire flower is suffused with light pink; growth stroug; bloom profuse.

Maman Cochet.

Mad. Caroline Testout

Probably no Rose stands higher in public estimation today than La France, and when we say this elegant new Rose is a close counterpart of Lu France we have said enough to insure its being planted by vast numbers of people. We don't know that it is any better than La France, but it is decidedly deeper and more brilliant in color and a larger flower, and is as good in other ways. It is a wouderful Rose.

*Mad. Jos. Schwartz

One of the most hardy Tea Roses, and practically adapted for open-ground planting. It produces its bloom in great profusion; color white, heautifully flushed with pink.

Mrs. Theodore Roosevelt

A beautiful Rose. It is a seedling of La France, much stronger in growth and has a better constitution. The freedom of bloom is remarkable; small plants begin blooming at once and produce flowers in

eontinuous suecession throughout the season. The buds are full, long and pointed; the open eflowers never show a center and remain fresh and pleasing for a remarkahly long time. The color is ereamy white, with pink shadings in the depths of the petals, the coloring being pronounced in the center. It is a grand Rose for the garden; but it is, if anything, even grander when grown for ent-flowers under glass, and will be largely used for that purpose. Very fragrant.

*Mosella (Yellow Soupert)

Mosella is a stronger grower

and flowers a little largerthan Clothild e Soupert, but appear the same in clusters and on sin-

gle stems. The color is a chrome yellow in the center, getting creamy white on the edges of the petals. It will make a great bedder, and is perfectly hardy.

Niphetos

Still a great favorite and one of the best white Tea Roses. The buds are long and pointed, opening out into a fine, large, pure white flower. Much prized on account of its delightful fragrance.

* Pearl of the Garden

The form of the hud is round and symmetrical; growth strong, healthy, vigorous; color rich canary-yellow.

* Pink Soupert

This bright new Rose is a very free-flowering variety, much resembling Hermosa, but more double and flowering more freely. The flowers are not quite so large, full and handsomo as our original Soupert, but fill a place because of their brightness and freedom.

* Queen of Edgely (Pink American Beauty)

Another season has proved this wonderful Rose to be all and more than was claimed for it by its originators. A perfect American Beauty in all respects except in color of bloom, which is a most lovely shade of bright pink, approaching Mme. Caroline Testout. As the flower grows older it turns to a lovely light pink. This is one Rose that you will all want, and the price this season is within reach of all. We can recommend this highly to all lovers of a truly grand Rose. 10 ets. each, \$1 per doz. Field-grown, 30 ets.

* Queen's Scarlet

Dazzling crimson-searlet, with beautiful buds. A splendid Rose.

Rainbow

A very useful and handsome striped variety of strong, vigorous habit; makes fine buds.

* Safrano

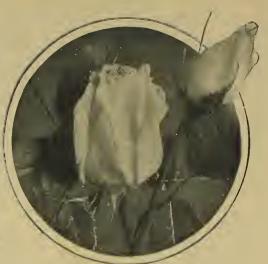

Bright aprieot, changing to fawn; constant bloomer.

* Snowflake

Never out of bloom, and as a pure white bedding Rose its equal is bard to find.

Sunset.

Bud of President Carnot.

* Sunrise

A grand improvement over the well-known Sunset. The color is a blending of deep yellow with bright searlet and clear deep eopper shadings; as the bud opens the scarlet ebanges to dark red. The buds are perfect, and the open flower is one of the handsomest imaginable.

Sunset

Full, finely formed flowers; rich golden amber, tinged and sbaded ruddy eopper; a prolific bloomer.

* Souvenir de la Malmaison

One of the eboicest Roses we offer and one that will give entire satisfaction for garden or pot culture. The color is ereamy flesh, bright and elear.

* Souvenir de President Carnot

The fluest Rose presented to the public in many years. In beauty of form it is simply mismrpassed; has the loveliest pink and white tints ever seen.

*Triomphe de Pernet Pere

Bright, shaded red, with slightly recurved petals; elegant buds; full and double.

Winnie Davis

The eolor is aprieot-pink, shading to a flesh tint at base of petals; buds oblong and well formed, when fully expanded resembling a sunburst; most peculiar, and strikingly beautiful. Its habits are vigorous and robust; very free-blooming, each eye producing flowers. Foliage leathery, reddish green, glossy and very large. It also has the disposition of throwing up vigorous shoots from the roots, producing three to eight blooms, its peculiar fragrance like luscious apricots. For the middle and southern states we claim the Winnie Davis to be an acquisition that is second to none introduced in recent years.

White Lady

One of the startling new Roses of recent date. It has gigantic flowers with enormous magnolia-like petals; one of the handsomest and most effective of Roses, and very distinct. The color is white, delicately flushed with pale pink; blooms are borne in great profusion on stiff stems, with heavy foliage.

* White Bougere

Free-blooming, clean and healthy in growth; flowers pure white, of good substance, on good stiff stems; will produce 50 per eent more blooms than Bride.

* White Maman Cochet

This American sport of the grand French variety is very likely to prove the very best white bedder.

Yellow Cochet (Madame Derepas Matrat)

A pure Tea Rose, very free-growing and hardy in character. It throws up fine, strong stems, crowned by solitary buds of grand size; the color is a good sulphur-yellow on first opening, changing to a delightful rose color as the flower gets age, when it takes on this rose shade. It cannot be distinguished

from White Maman Cochet, Will probably rank with the Cochets. Blooms very large, perfectly double, splendid form and freely produced. It has every quality necessary to make the ideal yellow bedder, ranking with the White and Pink Cochets in value as a summer Rose. 10 cts. each, \$1 per doz.

FOUR LA FRANCE ROSES

*Pink La France

The flowers are very large, double, delightfully fragrant; light silvery pink; blooms continuously throughout the season and stands first among Roses for our climate.

* White La France

Pearly white, shading to rose; like La France in other characteristics.

* Red La France (Duchesa of Albany)

Retains all the characteristics of the type, with the blooms three to four shades darker, of a deep carmine pink hue.

* Striped La France

Beautifully variegated bright rose on a satin pink ground.

Hybrid Perpetuals

General Jacqueminot.

*General Jacqueminot

Rich velvety crimson; magnificent in bud state or open.

* Paul Neyron

The largest-flowered Rose in cultivation and one of the freest blooming; color deep clear rose; very fresh and attractive; an exceptionally good grower, making straight shoots 4 to 5 feet high in one season, each shoot tipped with an immense flower, often 5 inches in diameter.

Margaret Dickson

Flower very large; white, with rose center; petals very large, shell-shaped, of heaviest texture.

* Magna Charta

Pink, shading to carmine; very large and globular. Buds magnificent and produced in abundance.

Mrs. John Laing

Queen of the Hybrid Perpetuals. Soft pink, with satin-like sheen. The flowers are large, finely shaped and exceedingly fragrant.

* Vick's Caprice

Soft, delicate pink, shaded carmine.

CLIMBING ROSES

*Baltimore Belle

Pale blush, varicgated carmine, rose and wbite; very double; flowers in beautiful clusters.

*Climbing Meteor

The finest crimson ever-blooming climbing Rose. It is a rich, velvety crimson, much like the forcing Roso Metoor, of which it is a sport, and an extremely strong-growing variety, making shoots 12 to 15 feet long in a single season under favorable circumstances. It has the same characteristies as its parent, and will give unalloyed satisfaction.

*Climbing Bridesmaid

What Bridesmaid Is to the garden this Rose is to the higher planes, where it decks

the airy heights with a wouderful profusion of clear, deep pink flowers.

*Climbing Wootton

New, hardy, everblooming crimson Rose. To our mind this is one of the best Roses in this book, for these reasons: It is hardy, has no weak spots, grows with wonderful vigor, blooms continually throughout the growing season, producing flowers that are nothing less than superb, both in size and profusion of flowers; color a bright magenta-red; flowers large and petals heavy and leathery; beautiful buds. An allright climber.

*Climbing Soupert

The wonderful new hardy ever-blooming climbing Rose. This new variety stands at the head of hardy climbing everblooming Roses, and is unequaled for quick and abundant bloom and healthy, vigorous growth. The flowers are two and a half to three inches across, and perfeetly double; rich creamy white, sometimes tinted with blush and borne in immense profusion the whole growing season, from Juno to November.

*Crimson Rambler

Perfectly hardy in the open ground; will grow 8 to 10 feet in a season. Flowers appear in great panieles, and are of a

deep, rich crimson color, like blood-colored velvet; when cut they last two weeks in water, and fully a month on the bush.

Climbing Perle des Jardins

A vigorous climber that meets all the requirements, and is as charming in color and size as the standard Perlc; golden yellow.

*Climbing Souvenir de la Malmaison

A sport of the old favorite Malmaison. Flowers are very large and double, of a beautiful flesh color; plant is of strong, climbing habit and free-blooming.

*Empress of China

A true perpetual bloomer, producing a pro-

fusion of flowers even the first season. Flowers of good size, semidouble, of a beautiful bright pink. Grows very fast.

*Gainsborough

The best of all climbing Roses. We are very proud to bring this fine Rose to the notice of all rosarians, be they amateur or professional. We are fully convinced that for a hardy ever-blooming climber it bas no equal, even eclipsing that grand variety, Mrs. Robert Peary. For beauty and size we place this variety at the head of the Hybrid Teas. The foliage is an exact counterpart of its parent, Viscountess Folkestone. Its delicate colors are hard to describe, being delicately tinted flesh, almost wbite, and lnstrous as satin; when in full bloom it resembles a large, fine, white, fluffy peony, but without a suggestion of stiffness, often measuring 8 to 9 inches in diameter. An enthusiastic admirer describes it as a Rose reminding him of a beautiful girl wearing a lightcolored Gainsborough hat, ornamented with white ostrich plnmes. Hence the suggestion of its name. Be sure and try this grand Rosc. 15 cts. each.

Use our Plant- and Rose-Foods and you will have plenty of flowers, healthy plants and large tips.

Crimson Rambler.

Marechal Niel.

Gloire de Dijon

A magnificent Rose; one of the finest in every respect. Large, perfectly double and tea-scented; color rich creamy white, beautifully tinged with amber and pale blush,

*James Sprunt

Deep cherry-red; flowers are of medium size, very double and sweet. A strong, free grower; very abundant ln bloom.

* Marechal Niel

Beantiful, deep sulphur-yellow, very full, very large and exceedingly fragrant. It is the finest yellow Rose in existence. When allowed to grow until it attains a large size, as it will in a few years, it yields thousands of beautiful golden yellow flowers, and makes a grand sight in the garden. Grown the world over for its magnificent yellow flowers. Especially desirable in the South. We have a grand stock of this variety, and can guarantee it true to name. 2½-inch pots, 10 cts. each; 3-inch pots, 25 cts.; 5-inch pots, 50 cts. Field-grown, 50 cts.

*Mary Washington

Sald to have originated at Mt. Vernon over one hundred years ago. It is an ever-blooming climbing Rose of vigorous and rapid growth, and makes a profusion of fine buds, which are borne in large clusters. The flowers are of medium size, pure white, perfectly double and very sweet. One of the most popular climbers.

* Mrs. Robt. Peary (Climbing Kalsorin Augusta Victoria)

An exact counterpart of the bush form in every way except its climbing features. This is one of the most delightful of all pillar Roses, and should be in every collection.

* Pink Rambler (Psyche)

A new Rose from the Crimson Rambler, which is identical with its parent in all its fine qualities except the color, which is a light salmon-rose, shaded with piuk. A strong grower, and a real companion to the Crimson Rambler. Grown together they make handsome embellishment to the porch.

* President Cleveland (Climbing Mario Guillot)

Of a semi-climbing habit and otherwise identical with Marie Guillot, the loveliest of all white Roses.

*Reine Marie Henriette

A seedling of Gloire de Dijon, with bright red flowers, large, full and scented. This Rose partakes somewhat of the Hybrid Perpetual character, and in shape, form and size It is certainly very distinct and beautiful. It is a bright cherry, and a strong, vigorous grower that succeeds well in all the different sections of the South.

USE OUR PLANT- AND ROSE-FOODS AND YOU WILL HAVE PLENTY OF FLOWERS, HEALTHY PLANTS AND LARGE TIPS

Geraniums

For years our best efforts have been used to get together a collection of this popular bedding plant that will do well in the hot dry climate of the South, and neither time, money nor effort have been spared. We have tried all the new sorts as they appeared, both American and foreign; and, while we have been at a great expense, we have, we believe, accomplished our desire. We offer what we believe to be the best collection to be found for planting in the South. They are all ironclad and sun-proof. We feel sure that our friends will make no mistake in ordering any of the collection offered. They comprise all of the best scason are included in this list. Prices, 10 cts. each, 6 for 50 cts., or 15 for \$1; or we will send 20 unlabeled plants, no two alike, for \$1 by mail or express.

SINGLE RED

Jacquerie. One of the largest of florets, longer than wide; velvety in texture, and a magnificent shade of dark crimson-scarlet.

Shelly. Rich, deep velvety crimson. A grand flower in color, size and form.

DOUBLE RED

Alphonse Ricard. An excellent semi-double; a strong grower, dwarf and branching. Produces immense trusses of bloom, from 5 to 7 inches in diameter; color bright orange-red.

DOUBLE RED GERANIUMS, continued

Heteranthe. One of the very best Geraniums for bedding; exceptionally largo trusses of semi-double flowers; clear orange-scarlet.

Paul Bruant. Best all-round Bruant for the Sonth; somi-double scarlot.

S. A. Nutt. Rich, dark crimson; the flowers are of perfect shape and fino size, the trusses massive and produced in great numbers; close, compact hahit.

Spaulding's Pet. Rich, dark crimson; blooms borne on long stems well above the plant; the best crimson bedder we know of for our climate.

A. Fleurot. Dark red, maroon center.

Ville de Poitiers. Double. There is notbing finer than this in the Bruant race. Color rosy scarlet, vory clear and bright; trusses very large, composed of enormous florets nearly 3 inches across, and of the peculiarly beantiful form of Beaute Poitevine. Very free, producing an elegant effect when massed.

DOUBLE PINK

Jean Viaud. The queen of the pink Bruants. Soft, pure pink; semi-double, with two white blotches. Dwarf, stocky grower, rigid stems, large trnsses, perfect florets; a continuous bloomer, the plant being covered with flowers thronghout the season. The finest double pink variety that we bave ever seen. Will rank with the best bedders of any color, if it does not prove the leader of them all. It has an iron constitution, and withstands the rain and sun better than any other Geranium. We speak with absolute certainty about this variety.

Mme. Goyeux. Light rosy pink, with large white blotch in the center of the flower; a delicate and beautiful color. One of the prettlest of double Aureoles, because the colors are absolutely bright and clear. Very free in bloom, and stands the sun finely. Very valuable in fancy bedding; a nice,

Jean Viaud.

dwarf grower, with compact foliage of light green; free and vigorous.

Mad. Louise Abbema. This lovely variety has large, round florets, of an exquisite shade of blush piuk, mottled and shading into white. Nicely filled with petals. One of the prettiest of the double fancy Anreole picotoos.

Lizzie Hamilton. Dark pink; fine bedder.

Montesquieu. Light pink; very free bloomer.

Thos. Meehan. Fine scmi-double, of a bright magenta shade, flowering very freely in large trasses of well-opened flowers with distinctly fluted petals, the base of the upper petals marked with orange.

SINGLE PINK

Benjamin Shroeder. Light green foliage that is very bright in color; flowers extremely large, of soft, rosy pink color, with distinct white blotch on the npper petals; of satiny texture; petals slightly recurving.

Madonna. Soft, pale pink; florets large, arranged in handsome, showy trusses well above the foliage; distinct and beautiful color.

SINGLE WHITE

Mrs. J. M. Gaar. Absolutely perfect as a bedding variety; never burns; is of dwarf, compact habit; in freedom of bloom is superior to all white bedders, and equal to the best scarlet ones.

L'Oute. Good single wbitc.

DOUBLE WHITE

Alpine Beauty. Very dwarf, with stiff, neat foliage; the flower stems are long and stiff. Both floret and truss are of nuusnal size; stands the sun finely, proving a grand bedder.

La Favorite. Trnsses very large; florets of the most beantiful and perfect form, and of the very purest, snowlost white in color.

Comtesse de Harcourt. Pare snowwbite; a grand hedder; florets large and beantlfully formed; extremely free in bloom, forming a hank of white.

SALMON

Mrs. E. G. Hill. Of a most distinct and pleasing shade of salmon, with light shading in the center. Trusses are large and composed of an immense number of florets. The finest salmon-flowered Geranium to date.

Louis Francais. New Double Bruant snn-proof variety. Semi-double, pure rose color, tinted with salmon. This is an improved Beaute Poitevine, if such a thing is possible, with a color that is quite irresistible. The flowers are enormous, on good stems, and with all the best points of a perfect Bruant Geranium, in addition to the fine new color.

James Vlck. Dark salmon; extra good for bedding.

SALMON GERANIUMS, continued

Mad. Landry. Flowers very large, immense trusses on long, rigid stems; semidouble. Plant remarkably free in bloom, being a mass of flowers until the end of the season; color rich salmon, shaded orange, edge of petals of a brighter shade than the rest of the flower; a beautiful and distinct variety.

Mary Hallock Foote. Immense trusses of bright salmon, with a pure white eye; a grand variety.

VIOLET

Kleber. Deep violet of velvety texture. Form of floret vory fine. A free grower, and very free in bloom. Flowers held well above the foliage.

Pres. Perault. Double violet-red.

VARIEGATED

Andrew Lang. Glowing searlet, with large white blotch on the two upper petals, the center suffused with carmine. The most brilliant contrast of colors yet found among the Aureoles, united with a form nearly circular. Beds uicely.

Alice of Vincennes. Border of intense searlet, forming a band around the body; color of rosy pink, heavily veined with scarlet, center white; a brilliant combination of colors.

Mme. Bruant. A variety totally distinct from every other in culture; plant vigorous and free-flowering; fine trusses, with large flowors; white, veined with carmine-lake, the five petals regularly bordered in hright solferino; the arrangement of color is exquisite, often intermingling and producing a striped or "panache" effect.

Fleur Poitevine. This beautiful novelty differs entirely from the preceding; the flowers are large, color brilliant rosy earmine, marbled and striped in white and producing an aureolo of deep orange-carmine at the center; the plant is robust and produces quantities of bloom on stiff etems.

IVY GERANIUMS

P. Crozy. A grand hybrid between the Zonales and Ivies, having the foliago of the former, but very heavy in texture, while the forms of truss and florets are found only among the Ivies. The color is soft bright scarlet.

Souv. Chas. Turner. Florets 2½ inches, in trusses 6 inches across. Color a deep, bright pink, approaching searlet in color, the upper petals feathered maroon; quite double.

Garden's Glory. Fine, bright scarlet, the best of its color, perhaps; bold, full flower; free grower and bloomer, and one of the most generally useful of Ivies. 10 cts.

Le Printemps. Rosy pink; very beautiful and effective. Should be better known and more widely grown. 10 cts.

Chas. Monselet. Fiery red; upper petals nicely marked. Trusses as fine as those of a Zonal. 10 cts.

Ivy-leaved Geranium.

Galilee. Light rosy pink, veined with lilae; extra good. 10 cts.

New Double White Ivy Geranlum, "Joan of Arc." The flowers are perfectly double, white as snow, and literally cover the plant when in full bloom. The folinge is extremely handsome, the dense, glossy green leaves making a most effective background for the great cluster of snow-white flowers. 10 ets.

Mrs. Hawley. A deeper-colored Chas. Turner, with more vigorous babit. Flower large, in fine trusses on long stems; has all the good qualities of Turner in a beautiful new color. Every florist will appreciate this delightful novelty. 10 cts.

Col. Baden-Powell. The flower is of enormous size, the largest among Ivies; of elegant showy form; the color varies from pearl-white to soft blush; a free bloomer and a good grower. The trusses are of good size, on long stems which makes it doubly valuable; makes a fine specimen pot-plant, and is very beautiful in baskets.

PELARGONIUMS, OR LADY WASH-

INGTON GERANIUM

These have very beautiful flowers, richly blotched, so that they are sometimes called Pausy Geraniums. 15 ets.

SCENTED GERANIUMS

Price, 10 cte., except where noted

Apple. The most delightfully scented of all Gerauiuus. 15 cts. aud 25 cts.

Nutmeg. Small leaves, resembling the apple-scented.

Rose. Broad-cut fragrant leaves.

Cut-leaved Rose. Leaves finely cut.

Old Standard Chrysanthemums

Price, 10 cts. each, 50 cts. for 10 not labeled, \$1 for 20, hy mail, poetpaid. (Premiums not allowed on 10 and 20 collections)

Major Bonnaffon.

WHITE

Ivory. One of the best known dwarf early white sorts. This variety is grown in immense quantities.

Mrs. H. Robinson. The grandest early white variety; innuense, incurving, broad-channeled petals of great substance.

Mutual Friend. Purest white; ranks among the very hest; slightly reflexed; stiff stems; foliage good.

The Queen. One of the grandest of all the white sorts, especially for exhibitions.

Mrs. Jerome Jones. Grand stem and beautiful foliage; quite dwarf; flowers waxen white, with broad, incurving petals. This is one of the very fluest Chrysauthemums.

Silver Wedding. Flower of good substance; pure white.

Timothy Eaton. The grandest sort sent out for years. Took everything in sight in the shows the past season. Color creamy white; immense-sized flowers; incurved. Flowers last a long time.

PINK

Maud Dean. Very bright, clear, heautiful shade of pink; petals horizontal or recurved; stems stiff.

Vivian Morel. Grandest reflexed pink variety to date; very large flower; fine foliage; strong stems.

Mrs. S. T. Murdock. One of the finest novelties; rich glistening pink; fine globular bloom, of rather short, incurving petals; stem and foliage perfect.

RED

Black Hawk. Dark crimson-searlet; large, strong-growing, with stiff stem and grand foliage.

YELLOW

Colonel Appleton. A magnificent yellow variety. This sort was also a great prizewinner the past season, and is deserving of a trial by all who grow fine flowers.

Golden Wedding. There is no finer yellow than this variety when well grown: the blooms are enormous, shining golden yellow; grand in habit and foliage.

Major Bonnaffon. Soft, clear yellow, crowded with petals, quite globalar; growth extra-good, perfect in form and finish. The great blooms are sometimes 6 to 7 inches across and nearly as deep; the color has a peculiar luminous quality. One of the handsomest and most distinctive varieties in cultivation.

Modesto. Exceptionally meritorious. The finest yellow yet produced. Intense in color, unsurpassed in size, of an incurved, slightly whorled form, with very high, full center. A most beautiful variety.

Yellow Eaton. Bright yellow sport from Timothy Eaton. Considered hetter commercially than its parent. Good for all purposes.

OSTRICH PLUMES

Enfant des Deux Mondes. A creamy white, hairy variety, of fine shape and excellent form.

Louis Boehmer. Identical with the above, except that its color is an exquisite shade of silvery pink, with deep rose on the inside petals.

F. J. Taggart. One of the most striking and novel varieties of this section. Very large, perfectly double flowers; color pure yellow.

Louie Boehmer.

Carnations

We are the largest growers of this truly popular flower in the South. We grow for ent-flowers each season over 50,000 plants, and we grow nothing but the best. We do not offer everything to be found in Carnations, but the best only, such sorts as we find to be money-makers as cut-flowers. These are the ones that give the amateur the best satisfaction, and these are the sorts you will find listed below. You can order from this collection and not fear that you are getting anything that will not give you the best of satisfaction. The Carnation is one of the most satisfactory plants for the South. Ready February 15.

Price, except where noted, 10 cts. each, 50 cts. for 6, \$1 fer 15, by mail or express

"The 30,000 Carnation" (Mrs. Thomas W. Lawson). It is a beautiful shade of pink, 3 to 4 inches in diameter, on strong, erect stems. It is such a grand flower and so strong and sturdy in growth that the originator was pald \$30,000 for the original stock.

Mrs. F. Jooste. An almost pure pink in color, showing scarcely any lavender. It combines large size with good length and stiffness of stem and strong growth. We had good results from this variety this season.

Dorothy. This sort is pronounced by all to be the finest of all late productions. Its beautiful pink flowers are of immense size, borne on stems often a yard in length. It is free in bloom, and the flowers bring fancy prices in all markets. We sold the blooms of this sort the past season at \$1.50 per dozen.

Flora Hill. The flower is of enormous size and most deliciously scented; wonderfully free in bloom. White.

White Cloud. A remarkably new white Carnation; blooms very early on strong, stiff stems and continue to bloom the entire season. Flowers large, of fine shape; fragrant.

Queen Louise. Pure white. It has much to recommend it as a commercial variety. Its freedom of bloom, east of culture and perfect calyx are among its leading features. Always in bloom, every shoot producing a perfect bloom.

G. H. Crane. We do not hesitate to recommend this as the best searlet Carnation. It is a very large-flowering sort, first-class in both quality and quantity of bloom. It comes into flower early and continues all season; color a clear, brilliant searlet.

NEW VARIETIES

Price, 15 cts. each, 25 cts. for two, 35 cts. for the three

PROSPERITY. One of the largest Carnations in cultivation; very striking in color and form; pure white, mottled with soft pink, forming a combination seldom equaled in plant life.

THE QUEEN. The best and most prolific white Carnation to date, bearing a 3- to 3½-inch bloom on a long rigid stem. A fine keeper and shipper. The ealyx never bursts, and no poor flowers. We can strongly recommend this variety as the best we know as an all-round commercial variety.

ENCHANTRESS. One of the grandest of recently introduced Carnations, a leader in its color, an exquisitely delicate shade of shell-pink, deepening toward the center. The stem and habit of growth are as nearly perfect as can be. Blooms early and continuously.

THE LATEST

20 cts, each

FLAMINGO. A sensational scarlet-flowered giant that has set Carnation-growers to woudering if the limit of Carnation perfection has not, at last, been reached. Brightest deep scarlet, of splendid form and unusual freedom of bloom. Its equal as a fancy cut-flower variety has yet to be shown.

NELSON FISHER. Pronounced an improved form of Mrs. Lawson; produced by the originator of Mrs. Lawson, and surely worthy of extensive cultivation. Very bright, deep pink, showing none of the magenta shading often seen in Lawson.

MRS. PATTEN. A very high-grade, commercial variegated. Color white, daintily marked with Lawson pink; blooms early and freely. One of the best in its class.

Flamingo.

General Collection of Greenhouse Plants

ABUTILONS

(Flowering Maples)

Eclipse. Always in great demand for baskets and vases. One of the finest variegated foliage plants, beautifully marked dark green and yellow. Flowers bright yellow, with crimson throat. Has quite a distinct trailing habit. 10 ets.

Souvenir de Bonn. The most attractive of all the Abutilons, having deep green mapleshaped leaves distinctly bordered ereamy white. Very free-flowering, with bright orange flowers, veined crimson. A very distinct variety; makes a fine decorative plant. 10 cts.

ACALYPHA

Sanderi. One of the most striking flowering ornamental plants we have ever seen. It is of strong, free growth, with large dark green leaves, from each axil of which thick rope-like spikes of velvety crimson flowers

Souvenir de Bonn.

are gracefully suspended. The remarkable floriferousness and the great size of the spikes of flowers (compared to the plant) is fairly well shown in our pieture. The plant is in flower the year round, and is as easily grown as a coleus. Give a warm temperature. 15 cts.

Triumphans. Very bright, ovatepointed leaves, light red, shaded and marbled darker. A fine ornamental plant for bedding or pot culture, as showy as eoleus; its colors are bright and distinct. 15 ets.

Aloysia citriodora

Possesses a delightful fragranee entirely unlike that of any other plant. Should be planted in every garden and eut to use in bouquets of flowers. May be repotted in the fall and earried over in the house, but makes but little growth during winter months. 10e.

Araucaria excelsa

(Norfolk Island Pine)

As a decorative plant for the house this is one of the handsomest and most serviceable. It has deep green, feathery foliage, arranged in whorls, rising one above the other at regular distances; its symmetry of form, grace and beanty of foliage are unequaled in the vegetable kingdom. It is easily grown in the house and is highly ornamental. Our importation of these this year was exceptionally large and fine selected stock, especially in the medium-sized, for which there is always a demand. Nice plants, 2 to 3 tiers, 75 ets. to \$1; larger plants, \$1.50 to \$5.

Alternantheras

In yellow and red shades. Finc for edging flower beds and ribbon work. 5 ets. each, 50 ets. per doz., \$3 per 100.

Alyssum, Sweet

Fine for cut-flowers, borders, hanging baskets and window boxes. 5 cts. each, 50 cts. per doz.

Amaryllis Johnsonii

Jacobæan Red Lily. A free bloomer, and very desirable Lily; very fragrant. 30 cts.

President Carnot Begonia. (See page 20.)

Araucaria excelsa.

BEGONIAS

10 cts. each, \$1 per doz., except where otherwise noted

Alba perfecta grandiflora. This variety closely resembles the well-known Begonia rubra in foliage and growth, with beautiful pure white blossoms. Larger plants, 25 ets.

Alba picta. Very ornamental, has long, ear shaped, medium sized leaves of darkest green, with silvery spots. Larger plants, 25 cts.

Argentea guttata. Has the silvery leaf blotches of Alba picta, with the form and beauty of Olbia; purple-bronze leaves, oblong, with silvery markings; flowers white, on the tips of the stem.

Erdfordia. Has all the good qualities of the famous bedders, Vernon and Dewdrop. It will stand the strong sm in summer, and is one mass of bloom from June until frost. It is also a very showy pot-plant for spring sales. Habit of growth strong and compact; color deep rosy pink. We have a splendid stock and offer it at an exceptionally low price. 15 cts.

Feastii (Beefsteak Begonia). A low spreading Begonia, with perfectly circular leaves, red beneath and dark glossy olive-green above; flowers pink, set np on long stems; very easy to grow. 15 ets.; larger plants, 50 ets.

Rex Begonia.

BEGONIAS, continued

Marguerite. Somewhat like Metallica, but more bushy; leaves hrouzy green; large trusses of light rose-colored flowers freely produced. A hetter market variety than Matallica

President Carnot. A remarkably stronggrowing variety, of stiff, upright habit; somewhat in style of B. nubra, but much larger in flower and leaf. Flowers heautiful coral-red, in large, pendent panieles, 15e.; larger, 25e.

Rubra. Dark, glossy green leaves, free-flowering; flowers rich coral-red, in large, pendent panieles. One of the best.

Sanguinea. A showy variety, with very large leaves, rich olive above, crimson beneath, and of a peculiar leather-like substance; flowers light rose to white, very dainty.

Sandersoni. The Coral Begonia. One of the best flowering Begonias. The flowers are of a scarlet shade of crimson, borne in profusion for mouths at a time. Resembles eoral. Larger plants, 25 ets.

Semperflorens gigantea rosea. A vigorous grower; large leaves; elegant trusses; rose-colored flowers,

Washingtonia. A winter-flowering variety, with glossy leaves and immense panicles of pure white flowers.

Rex. Painted-leaf Begonias. These are grown for their handsome variegated foliage. For house enlture, baskets, vases, etc., there is nothing more beautiful. We have a very fine assortment. 15 cts and 25 cts.

Manicata aurea. Leaves large, glossy and smooth; a delicate shade of green, hlotched profusely with bright yellow; flowers light pink. Larger plants, 40 cts.

Remember we are the largest Rose growers in the South

Bougainvillaea glabra Sanderiana

Flowers soft rosy erimson, horne very evenly all over the plant. Blooms when quite small, and may he trained in almost any shape. On account of the lasting qualities of its flowers, it is frequently ealled "Chinese Paper Plant." One of the daintiest and most beautiful plants to grow. 10c., 25c., 50c. and \$1.

Feverfew, Double

Fine for summer-blooming. White flowers in large clusters; hardy. Used extensively for grave planting, where it will thrive and bloom all summer. 10c.

Coleus

We have a splendid collection of this justly popular foliage plant, and can supply any color desired. We have not space here to name and describe them, but we have ahout fifty sorts to choose from, and all good ones; just name the shades of color you desire, and we can please you in selection. We have all shades of red, yellow, purple, green and speckled, spotted and mottled, and we

and speckled, spotted and motified, and we can supply any color or mixture of colors. Price for nice plants, hy mail, 5 ets. each, 50 ets. per doz., or \$1 for 25.

Cannas

We have a full collection in shades of red, piuk, yellow and variegated. All of the leading sorts. Single eyes, for mailing, 10 ets. each, 75 cts. per doz.; large clumps, by express, 25 cts. each, \$2 per doz.

Bougainvillæa glabra Sanderiana.

CALLAS

Aethiopica. Will always be a favorite because of its easy culture, waxy white flowers and healthy green foliage. 15 cts.; extra strong plants, by express, 25 cts. to \$1.

Black Calla (Arum sanctum). Arare species from the Holy Land. The flowers are about 14 inches long from tip to base, and about 4 inches broad, at the widest part, gracefully curving to a small point. They have a strong, violet-like odor, are a deep velvety purplish maroon—almost black—on the upper side and moss-green underneath. From the center of the flower springs a spike 10 inches long, of the most intense glossy black. Bulbs, 20 ets. cacb, two for 35 ets.

Spotted Calla (Richardia alba maculata). This plant is always ornamental, even when not in bloom, the dark green leaves being beauti-

fully spotted with white; in other respects the plant is the same as the wbite Calla, but is of dwarf habit. Bulbs. 20c. ea., two for 35c.

Calla Æthiopica.

Cuphea platycentra (Ladies' Cigar Plant)

This is a well-known, ever-blooming plant of neat habit, growing about 12 inches in height. The tube of the flower is scarlet, with the end partly white and crimson; very useful as a ribbon line or front border plant. 10 cts. each, 50 cts. per doz.

Cyperus alternifolius (Umbrella Plant)

A grass-like plant, throwing up stems to the height of about 2 feet, surmounted at flie top by a cluster or a whorl of leaves, diverging horizontally, giving the plant a very curions appearance. A splendid plant for the center of baskets, vases or Wardian cases, or as a water plant. 10 cts., 25 cts. and 50 cts.

CALADIUMS

Esculentum. A tropical plant with luxuriant green foliage. The leaves are often more than 2 feet across and are bright and ornamental the entire season. Will grow in an ordinary garden soil, but should have plenty of water in order to give the best re-

sults. Very easy to cultivate; the bulbs may be taken up in fall and kept through winter in dry sand in the cellar. Extra large bulbs, 35 cts. each, \$3.50 per doz.; 1st size, 20 cts. each, \$2 per doz.; 2d size, 10 cts. each, \$1 per doz.

Black Calla.

Fancy-leaved. These delight in a place shady and They should be started into growth about March 1, dried off in October and kept in a warm and dry place until spring again. They are excellent for window boxes, vases or single pot-plants, and succeed equally well in a somewhat shady situation outdoors. Bulbs, 15 cts. each, \$1.50 per dog. Plants started, 25 ets. each.

Crown of Thorns (Euphorbia Splendens)

A curious plant; thick, flesby stems, covered with stout, sharp spines. There is a tradition that this plant furnished the material for the Crown of Thorns used in the Divine tragedy. Foliage bright green; flowers beautiful coral-pink, nearly all year; very pretty in bloom. 15 cts.; large plants, \$1.50 to \$5,

Cyperus alternifolius.

Boston Fern.

FERNS

BOSTON DROOPERS

This is the most elegant of all jardinière or pot-plants. The cut gives a very faint idea of the beauty of these graceful plants; they are of easy growth and soon make largo specimens, and no more attractive plant can be had for the dining-room or library. They are an elegant porch plant for summer; no insects bother them, and plenty of water is all the requirement of their culture; every one should have one or more of this delightful plant. Small plants, by mail, 10 cts. each; 4-inch pot plants, by express, fine specimens from \$1 to \$5, according to size. Note that the \$5 size are grown in 12-inch pots, and are heavy, covering a space of about 4 to 6 feet, and would make elegant exhibition plants.

GENERAL ASSORTMENT

We have an elegant assortment of Ferns, of which space will not allow of description here. We will send ten beautiful plants, different sorts, by mail, for \$1, or single plants 15 ets., 25 ets. for two.

Ostrich Plume Fern

(Nephrolepis Piersoni)

The grandest of all Ferns. This sterling novelty has met with the highest honors, having been awarded six gold medals by the Society of American Florists, the Horticultural Society of New York, the Big Kansas City Exhibition, the Massachusetts Horticultural Society, the Pennsylvania Horticultural Society, the Providence, Rhode Island, Horticultural Society, and silver medals and certificates of merit wherever put on exhibition. No single plant has ever received the honors bestowed upon this Fern, and the de-

mand for it will be very great. Wo want our customers to be sure and include this plant in their order. While the price is a little higher than that of other Ferns, it is well worth it, and we predict the price will not be much lower for some time to come, as the demand for this plant will be greater than for any Fern heretofore sent out. To see it is to want it; every one who sees it in our place goes wild over it, and no plant attracts the attention of every visitor as this one does. We have a good stock and will fill orders at prices given as long as the stock lasts. The fronds are long and graceful, like those of the Boston Fern, but the leaflets are compound, and each side leaf is a miniature leaf of itself; it is a splendid grower. Small plants, from 2½-inch pots, 25 ets.; 4-inch, 50 ets.; large specimens, \$1.50 to \$5.

Ficus elastica

(Rubber Tree)

The well-known Rubber Tree of commerce. These make the most elegant of all jardinière plants; no insects bother them, and they have large, leathery, glossy leaves of the richest green, overlaid in the new growth with a tinge of red that gives them a very attractive appearance. We have heavy fine plants that will make specimens in a short time; they will stand the hottest snn without being in any way harmed; fine for cemetery planting. Large plants, by express, 4-inch pots, 50 ets.; 6-inch pots, about '4 feet tall, \$1.50; large specimens, from \$2.50 to \$5.

Fieus elastica.

Hibiscus.

HIBISCUS

These free-blooming plants are unsurpassed for planting in the Sonth; they bloom freely, and no more attractive bedding plant can be had. An entire bed of these plants will make a very showy effect, and at the same time does not cost any more than an ordinary plant; they can be lifted and potted in the fall, and kept in any pit or room where it does not freeze, and then planted again in the springtime. We recommend these highly, and we think our friends will feel well repaid by planting them liberally, the single and double ones being alike desirable, and a good variation of colors can be had. The cut gives a very poor idea of this truly meritorious plant.

Prices for nice, strong young plants that will bloom freely thie eeason, by mail, 10 cts. each, \$1 per doz. Larger plants from 5-inch pots, by exprese, ready to bloom, 25 cts. each, \$2 per doz.

Peachblow. One of the finest plant novelties of recent years. Flowers double, of a rich shade of clear pink, with small deep crimson center; an entirely new and most beantiful shading; 4 to 5 in. in diameter. Blooms freely, even on small plants. Good as a house plant or planted out in the garden.

Golerl. Buff-yellow, crimson base; distinct

Sub-vlolaceus. Flowers of enormous size, beantiful carmine, tinted with violet; probably the largest flower of the family.

Carminatus perfectus. Full, round flowers of perfect shape and of a rich, soft carmine-rose, with a deep crimson eye.

Zebrina. Varicgated flowers; red and white.

Grandiflora. Rich glossy foliage, hlooming profusely during snumer, literally covering the plant with searlet-crimson flowers.

HELIOTROPES

10 cts. each, \$1 per doz.

Albert Delaux. Foliage bright golden yellow, slightly marked green; flowers deep lavender.

Queen of the Violets. Rich violet-blue; exceptionally free in growth and bloom.

Zephire. Light blue.

Gladiolus Bulbs

A collection of as fine sorts as you ever saw. 5 cts. each, 50 ets. per doz., \$2.50 per 100.

MOONFLOWERS

White (Ipomwa grandiflora). A plant that grows and blooms with every one. If planted ont in rich ground where it has full exposure to the sun, it will grow 40 feet high by the middle of Octoher, blooming abundantly the entire season. The flowers are pure white, from 5 to 6 inches in diameter, emitting a rich jessannine odor at night. They begin to open about sundown, and close before noon the following day. 10 cts. each, \$1 per doz.

Blue (Ipomæa Leari). This makes a splendid companion to plant with the above. The flowers are the most intense violet-blue, with reddish purple rays, and are 6 inches across. There is nothing of its color that exceeds in richness the flowers of Ipomæa Leari. 10 cts. each, \$1 per doz.

Rhyncospermum jasminoides.

JASMINUM

These delightfully fragrant plants should be in every one's collection of summer-blooming flowers; their delightful odor and free-blooming qualities make them a plant that Is much sought after. They are of easy culture and will well repay the cost and care bestowed on them. The following collection is eomplete, and our stock is unusually large this seasou.

Small plants, by mail, 10 cts. each, the full set of seven sorts for 60 cts.; larger plants, by express, 4-inch pots, 25 cts. each.

Cape Jasmine (Gardenia). Southern evergreen plant of great beauty. Deep glossy foliage; large, pure white blossoms of waxy texture and most delightfully fragrant. It blooms during May, June and July, and is well adapted for pot culture in conservatories and greenhouses.

Cestrum Parqui (Night-blooming Jusmine). Deep green, glossy leaves. Small, greenish white blossoms, with a delightful odor, which is dispensed during the night only.

Grand Duke of Tuscany. This is the finest of all double Jasmines and an elegant house plant; very small plants, producing

double white wax-like flowers of most delightful fragrance that remain on the plant for a long time.

Grandiflorum (Catalonium Jasmine). A beautiful white Jasmine of exquisite fragrance; the flowers are produced in great profusion; it is of neat growth, and a very desirable plant for the parlor or conservatory.

Revolutum. A strong-growing variety, with large golden yellow and very fragrant flowers, blooming in winter and early spring.

Mald of Orleans. A very attractive new sort, with good-sized double flowers, blooming profusely all summer; shining pale green foliage. We predict for it a rapid sale, as it is much easier to handlo than other Cape Jasmines, and, as a whole, more desirable.

Rhyncospermum jasminoides. Sometimes called "Confederate Jasmine." An evergreen greenhouse climber; has an abundance of fragrant, jasmine-like flowers in the spring.

The Wonderful New Lemon PONDEROSA

We have a fine stock of this novelty; too much cannot be said in its favor. Free-bearing, fruit of ponderous size, flavor unsurpassed, and its flowers have the most delightful fragrance; plants of easy culture. Price for plants from 2\%-inch pots, 15 cts. cach, 25 cts. for 2; 4-inch pots, 25 cts. each; large bearing, \$1 each.

Otaheite Orange

The best of the Oranges for house culture. It is of dwarf, bushy habit, and bears a profusion of fragrant flowers and edible fruit which are distinctly beautiful. 15 cts. each; large plants, 25 cts. and 50 cts.

Our plants are all of good size, and guaranteed true to name

Lantanas

The best collection in the South, Fine plauts in all colors, white, pink, red, yellow, variegated and drooping. 10 cts. each. \$1 for 15, hy mail.

Nierembergia gracilis

(Mexican Flax)
The showiest of all

plants for vases or hanging baskets; is also fine as a bedding plant, stands the hottest sun, and hlooms freely all summer. The flowers are borne in the greatest profusion, the entire plant being literally covered with bluish bell-shaped blooms the entire season. It sells at sight to visitors to our establishment. 10 cts.

Oleanders

Red, Pink and White. A fine collection. S mall plants, 10 cts.; larger, in white and pink, 25 cts.

Pilea Arborea (Artillery Plant)

A pretty little plant of drooping habit, resembling the fern; it is a fine hasket plant. 10 cts.

Asparagus Sprengeri,

ORNAMENTAL ASPARAGUS

Sprengeri. Especially useful to grow as a pot-plant for decorative purposes, for planting in ferneries or in suspended baskets, It grows freely the whole year and make an excellent house plant. A vigorous grower, producing sprays 4 to 5 feet long of fresh, green, feathery foliage. When grown as shown in the illustration, in a pot on top of a high pedestal, the long drooping sprays of bright, fresh green make a most beautiful ornament to the home. Useful for bouquets, wreatbs or sprays, remaining perfect for weeks after cutting. Strong plants, 10 ets. and 20 cts.; specimen plants, \$1 to \$2.50.

Plumosus nanus. A beautiful climbing plant, with bright green, gracefully arched foliage, surpassing Maldenhair Ferns in grace, delicacy of texture and richness of color. The fronds are 12 to 15 inches long and taper to a point from a width of 12 inches. One of the most beautiful decorative plants. 15 cts. to 25 cts.; larger plants, 50 cts. to \$1.50.

Asparagus plumosus nanus.

Pandanus utilis

A grand decorative plant. Its glossy dark green foliage, gracefully arranged, renders it particularly attractive: fine for centers of vases or baskets, or for growing as single specimens. 25 cts. Larger, by express, \$1 to \$4.

Pansy (Heart's Ease)

One of the finest early-blooming plants for outdoors. It will stand frost, can be planted out and will bloom when there is hardly any other flower in bloom. The plants we offer come from the very best German and French seeds. We offer extra select large-flowering varieties. Good plants from frame, 40 ets. per doz., \$3 per 100.

PETUNIAS (Ready in March)

Petunias are among the most satisfactory plants to grow, as they are extremely floriferous, and bloom from early summer to cold weather.

Single Large-flowering. Extra fine, maculated and striped varieties; among the finest of summer-blooming plants. 5 ets. each, 50 cts. per doz.

Double. Of this favorite bedding plant we have a earefully selected collection in white and pink. Price for small plants for planting, 10 ets. each, 75 ets. per doz.

PLUMBAGO

Price, nice small plants, 10 cts. each, \$1 per doz., by mail or express; very large plants in bloom, 25 cts. each.

Capensis. the most delightful blooming plants for the South; its charming phlox-like flowers are produced in abundance the summer through; the flowers are of an exquisite shade of blue, not found in any other flower, borne on long, graceful stems that give the whole plant a very attractive appearance. It makes a splendid vase plant, and is beautiful to plant around the base of a dwelling, or ean be grown as an individual bush plant. Where it is planted around the base of a dwelling it makes a eomplete hedge, and if. planted about two feet apart it will soon close up the space and give the building the appearance of having a foundation of flowers. Some

very pretty effects of this nature are to be seen in this city each season; admired by all who see them.

Capensis alba. The same as the above, with the exception that the flowers are pure white.

Paris Daisy (Marguerite)

Very profitable for eut-flowers. Always in active demand because of the many uses to which they are adapted, and also very easily grown and handled. We offer the best whito variety, having a ray of white petals around a salmon disk. 10 cts.

RUSSELIAS (Fire-cracker Plant)

The most beautiful of vase or basket plants. An entire basket filled with these beautiful drooping plants is an object of great beauty. The long, grassy foliage is thickly studded with its bright red flowers the season through, and well named the Fire-eracker Plant, as it does resemble a huge bunch of miniature fire-erackers when in full bloom. We sold large numbers last season, and it gave the best of satisfaction. We offer two sorts, as follows:

Price for either sort, 10 cts. each.

Lemoinel multiflora. The primary stems are strong and grassy. The flower panicles are extremely long, and are covered with tassols of flowers, one over the other. Color grand coral red. It is well named "The Many-flowered."

Lemoinel elegantissima. The primary stems are wiry and nicely covered with foliage, very graceful and arching in their form. The bloom is so freely produced as to cover the plant. Flowers a bright, soft red.

Rosemary

"Tis for remembrance. This old and delightful fragrant plant is once more coming into prominence. The call for it last season was so heavy that we ran short early in the scason, but we have a good snpply this season, and shall be prepared to fill all orders for this delightful old favorite. It is economy of time and money to buy the larger plants, as they bloom so much earlier and thrive better. Small plants, by mail, 10 cts.; large plants, by express, 25 cts.

Sanseviera Zeylanica

An elegant variegated plant, especially adapted for house decoration, the thick leathery leaves standing the heat and dust of the house with impunity. 25 ets. and 50 cts.

Smilax

A very graceful climber, with delicate, dense foliage, admirably adapted to climbing or drooping, as may be required. It is fine as a parlor or window plant. Much used in cutflower work, in which its tender, graceful foliage produces beautiful offects. 10 ets.

Swainsona galegifolia alba

A most desirable ever-blooming plant, with pure white flowers, produced in sprays of from 12 to 20 flowers each, the individual blooms resembling a sweet pea. 10 ets.

Swainsona galegifolia.

Tuberoses

One of the most delightfully fragrant and beautiful of the summer-flowering bulbs.

Strong bulbs, sure to bloom, 5 cts. each, 50 cts. per doz.; if by mail, add 15 cts. per doz. Single and double.

Verbena

This is one of the most satisfactory plants for the South; a bed of it is a mass of bloom the whole summer; the hotter the weather the better it blooms. We have a splendid collection of the Mammoth or Large-flowering varieties, which must not be confounded with the common Verbenas usually sold. The colors range through all the different shades of scarlet, crimson, white, blue, pink and variegated. 5 cts. each, 50 cts. per doz.

VIOLETS

The Violet grows more popular each season, and no home should be without a few plants.

California. Single flowers of deepest blue or purple, borne on stems 8 to 12 inches long. Can be worn nicely as a corsage bouquet. We grow large quantities of this variety for cut-flowers, and can rarely supply the demand. Is of exquisite perfume, and one of the most popular Violets grown, both for the house and garden. 5 cts. each, 50 cts. per doz.

Princess of Wales. Of French origin, and considered the finest single Violet grown. It is of the same size as California, but the color is beautiful rich, soft violet-purple; stems strong, stont, from 9 to 12 inches long. 5 cts. each, 50 ets. per doz.

Sansevieria Zeylanioa.

Kentia.

PALMS

Our collection of these truly grand ornamental plants is second to none, as our plants are all strong and well grown. We do not offer any small seedlings, but good strong plants, from 4 to 6-inch pots; those cannot be sent by mail, and will be sent by express only; as a plant such as could be sent by mail would be too small to be of much value to the amateur.

Cycas revoluta.

We therefore offer only such as we think will give good satisfaction. Our plants are splendid, and well worth twice the price we ask for them. If you are in want of a truly artistic jardinière plant for parlor, library or porch, it will pay you to have a few of these fine plants added to your order, for they are bargains that we can not offer every time. Their culturo demands plenty of water, good drainage and plenty of food. If you feed them liberally, you can grow a large specimen in a comparatively small pot. Our plant-food is the best to feed with, but if you do not have this you can uso weak liquid manure water at least once in two weeks.

Cycas revoluta (Sago Palm). The Cycas makes a magnificent specimen, and is one of the most valuable plants grown for the decoration of the lawn or house. The heavy, glossy, deep green fronds resist alike the gas, dust and cold to which decorative plants are frequently exposed. Fine, shapely plants. By express, 1st size, with 12 to 15 leaves, \$5; 2d size, with 8 to 10 leaves, \$3; 3d size, 6 leaves, \$1.50.

PALMS, continued

Areca iutescens. One of the most beautiful and valuable Palms in cultivation; bright glossy green foliage and rich golden yellow stems. It is exceedingly graceful and one of the most satisfactory house plants. 50 cts., \$1.50, \$2.50 and \$5, according to size.

Kentia Belmoreana. A beautiful strong-growing Palm. Deep green, crisp foliage. Very satisfactory for house culture. 50c., \$1.50, \$2.50 and \$5.

Kentia Forsteriana. Graceful, bright green foliage. Easy of cultivation and stands the temperature of the house exceedingly well. 50 cts., \$1.50, \$2 and \$5.

Latania Borbonica. A beautiful Palm, with large, deeply divided, fanshaped leaves. It is of easy cultivation and probably the very best variety for house culture. 50 ets., \$1.25, \$2 and upwards.

Phoenix reclinata. A fine large-growing, graceful Palm of easy growth, and one that will stand much neglect without injury. 50c., 75c. and \$1.50.

Areca lutsscsns.

Hardy Shrubs

The following list of Hardy Shrubs will be found most desirable for the southern planter. They are all well adapted to our dry seasons, and will give abundant bloom in their season. No yard is complete without at least a few of them, as they fill up space that nothing else will do as well; they are also desirable for cemetery planting, as they will thrive with little attention. The plants are strong and of the right size to plant for sure growth. A great mistake is often made in planting overgrown shrubs. These are of the proper size for planting with success. All shrubs go by express, as they are too heavy for the mails.

ALTHAEAS

(Rose of Sharon)

25 cts.

Alba piena. Large, double white flowers, blotched with rose.

New Banner. Flowers as large as a rose; clear rosy pink, striped rich crimson. Blooms the first year.

Double Purple. Double flowers; reddish purple.

Totus albus. Finest single white.

Calycanthus

(Sweet-scented Shrub)

Flowers chocolate color, very double and deliciously fragrant; remains in bloom for a long time; very desirable. 25 cts.

CRAPE MYRTLE

Pretty ever-blooming shrubs, that are a mass of bloom the entire season; they are fine for yard or cemetery planting, and make a pretty hedge when planted about 18 inches apart.

Crimson and Purple. 25 cts. Pure White. 50 cts.

DEUTZIA

Crenata fl. pl. Flowers double, white tinged with pink, in racemes 4 or 5 inches long; one of our finest hardy shrubs. 25 cts.

Lemoinei. New. Without doubt one of the most important new plants offered in many years. Its flowers are produced in broadbased, cone-shaped heads of from 20 to 30 flowers each, and are of the purest white. 25c.

Hydrangea paniculata grandiflora

Most desirable, effective and popular ornamental shrub extant, and its many distinct and striking qualities at once commend it to general favor for yard or lawn decoration. The bush comes into bloom in July and August, yielding profuse, massive cone-shaped flowers of the purest white, which, as the season advances, change to delicate pink, and later on to rich coppery red. Seen in the yard or on the lawn while in full bloom, it is truly an imposing spectacle, the prodigal display of white affording such a charming contrast with the green of its surroundings. The period of bloom being late, and prolonged for two or three months, at a season when other flowers are scarce and inferior, it serves to impart a degree of summer freshness to the landscape. See illustration, page 30. 25 cts.

Fringe, Purple

A beautiful, distinct large shrnb, much admired for its long, feathery flower-stalks, which give the tree the appearance of being covered with a cloud of smoke. 25 cts.

Magnolia grandiflora

The evergreen Magnolia of the Sonth. 50 cts, to \$1.

SPIREAS

25 cts.

Beantiful shrubs of the easiest culture; very desirable for shrubberies or the flower garden.

Billardi. Rose-colored flowers in spikes, blooming freely in spring.

Prunifolia. Bridal Wreath. Blooms in May, having pure white double flowers. Makes showy specimen plants for lawn.

Van Houttei. The grandest of all the Spireas; it is a beautiful ornament for the lawn at any season, but when in flower it is a complete fountain of white bloom, the foliage hardly showing. Clusters of twenty to thirty flat white florets make up the raceme, and these clusters are set close along the drooping stems. Perfectly hardy, and an early bloomer.

Anthony Waterer. A new crimson-flowered variety; one of the most beautiful of dwarf, flowering shruhs. It makes a low, compact bush, 15 to 18 inches high, and is covered nearly the whole growing season with large umhels of deep crimson flowers. Perfectly hardy, it makes a fine compact plant for low clumps or for bedding purposes. When grown as a pot-plant it is specially fine for house decorations.

LILAC

25 cts.

New Persian. Grand new variety. Flowers deep purple, exceedingly fragrant. Neat and compact growth. Blooms second year.

White. Rare and beautiful. Very sweet.

Viburnum sterile.

California Privet

(Ligustrum ovalifolium)

A vigorous hardy variety, of fine habit and foliage, nearly evergreen. Grows in almost any soil and is very patient of pruning. Makes a very desirable ornamental shrub as well as hedge. Two feet high, 10 cts. each, \$1 per doz., \$4 per 100.

Viburnum sterile

(Common Snowball)

A well-known shrub, attaining the height of 8 or 10 feet; produces its snowy white flowers in large balls or masses in April. 25 ets.

Hydrangea paniculata grandiflora.

Madame Edouard Andre.

Henryi.

Paniculata.

Hardy Vines

RED, WHITE AND BLUE CLEMATIS

The Clematis is, perhaps, the most popular climbing plant of the day, and is constantly gaining in popularity. Entirely hardy, blooming the entire season, embracing a great variety of color, of the most beautiful tints of blue, purple, lavender, scarlet, white, etc.; double and single, some of the flowers being 6 inches in diameter; and from their wavy, graceful contour, when wafted by a slight breeze, the flowers resemble huge butterflies hovering among the green leaves. They are all climbers, and if trained carefully attain a height of 5 to 15 feet in one season. Hardy, but a light covering of leaves or straw during the winter is desirable until fully established. Our Clematises are all on their own roots, therefore caunot throw up wild shoots, as grafted plants are apt to do.

PANICULATA, New Sweet-scented Japan Clematis. This elegant New Clematis is one of the finest elimbing vines for porches, trellises, arbors, etc. Flowers are rich creamy white, star-shaped, and borne in beautiful clusters, completely covering the vine with beautiful star-shaped blossoms, exceedingly fragrant; the sweetest of all Clematises, and one of the hardiest and easiest to grow. 2-year plants, 25 cts. each, 60 cts. for 3.

MADAME EDOUARD ANDRE, New Red Clematis. A splendid new sort, and the nearest approach to a bright red Clematis yet introduced; the flowers are 4 to 5 inches across, and a deep rose-pink or red; color very beautiful and entirely different from all others; good strong plants. 2-year-old plants, 50 ets.

HENRYI, the Large-flowering White Clematis. This variety is a much stronger grower than most of the other varieties, and is entirely hardy; excellent for cemeteries or wherever a hardy climber is desired; creamy white, large and fine. 2-year-old plants, 50 ets.

JACKMANI. Its rapidity of growth, matchless freedom of bloom, and the superby velvety purple of its large flowers have always been held in that relation toward other Clematises which Jacqueminot holds to hardy roses. The blooms are royal, coming in great numbers continuously from July until winter. Perhaps three times as many Jackmani are grown as all the other varieties combined. 2-year-old plants, 50 cts.

HONEYSUCKLES

10 ets, each, 3 for 25 ets.

For real home vines, to be near you, elimbing over your windows and doorways, there is nothing prettier than fine, sweet-scented Honeysuekles; the foliage is pretty, neat and elean, the flowers almost continuous, and the fragrance delicious.

Golden-leaved. Marvelously effective. It bears innumerable sprays of the most perfect little leaves that are eovered with a network of gold and green, often marked with pink also. The gold deepens at the tip of the sprays, and there is nothing finer to combine with corsage bouquets. A strong grower, with white blossoms.

Halleana. The best white monthly Honeysuckle, with dark green foliage, which keeps fresh and green nearly all winter, and beautiful clusters of the sweetest-scented flowers, that open a showy white and turn a pale yellow. These flowers are produced lu profusion from early spring until late fall.

Wistarias

For trailing over buildings, piazzas, verandas or trellises, the Wistaria is of superior excellence, and the decorative features—which their long, graceful, pendent blossoms afford—are particularly pleasing and effective The foliage is exceedingly rich and attractive and not too dense—half concenting and half revealing the object which it covers, which feature admits of a fine artistic effect of detail. The different varieties are entirely hardy, rapid growers and easy to enltivate. They may be trained to a shrub form of habit by attention to pruning, by cutting away the new growth for several seasons. We can supply white and purple. 25 ets.

Our Plant- and Rose-Foods

We would call your attention to those truly meritorious articles. They are first-class foods, especially prepared for the plants they are intended for. The Rose-food is the same as we use in the cultivation of roses, and our patrons can use it with the utmost confidence. We do not use any other manures in growing roses. The food contains just the requirements for making strong growth and producing large flowers. We use tons of this preparation each season, and, while we have the richest soil naturally, this food gives the plants in the field a rich, heavy growth that they would not get from the mother-soil, and in the growing of plants in pots we can double the size in the same length of time. We produce a larger plant in three months than is generally grown in six months. Plants that we propagate in December are plenty large for planting in April; and they have the health and vigor that make their success a foregone conclusion. It will pay you to try this food.

The Plant-food is a mixture different from the rose-food, and is especially prepared for the general class of bedding and pot-plants, such as begonias, ferns, palms, and, in fact, all plants. It is not as strong as the rose-food, and will not hurt any plant. If the directions are followed it will build up the puniest specimen to a good, healthy growth, and will produce blooms in abundance. The many testimonials we have received the past season are ample proof that this food gives the best of satisfaction. The food is put up in good-sized packages, and full directions for its use are printed on each package. We trust you will try these foods the coming season, for we know you will be well pleased with the results, but be sure and follow the printed instructions on back of each package, and use at regular intervals. Don't use once a week, and then once a month, but use as directed, and you will be well repaid for your efforts.

Prices of plant-food and rose-food are the same, namely, single box 25 cts.; five boxes for \$1, or 12 boxes for \$2, by express. If to go by mail, add 10 cts. to each box for postage.
